

WATER TREATMENT PLANT OPERATOR (TYPE B PLANT)

TOMPKINS COUNTY

Department Various  
Classification Competitive  
Labor Grade \_\_\_\_\_  
Approved 2/77  
Revised 10/21/88; 08/06  
By HH, Commissioner of Personnel

**GENERAL STATEMENT OF DUTIES:** Has responsibility for the actual operation of a water treatment plant. Does related work as required.

**DISTINGUISHING FEATURES OF THE CLASS:** This is routine but important work involving responsibility for the efficient operation and maintenance of a Type B Water Treatment Plant with facilities for the application of chemicals to the water, such as chlorine or chlorine compounds, chlorine dioxide, chlorine ammonia, fluoride compounds, or the process of dechlorination. The work is performed under general supervision of an operator qualified to be in charge of the operation of the plant. Supervision may be exercised over subordinate employees in the performance of their assigned duties.

**EXAMPLES OF WORK:** (Illustrative only)

Operates pumps, valves, motors, and related machinery and equipment;  
Performs maintenance work and makes minor repairs to machinery and equipment;  
Records readings of meters, gauges and scales;  
Regulates and adjusts chlorinators;  
Washes filter beds and settling basins, if existing;  
Takes samples of water for testing;  
Makes necessary tests for control of plant operation;  
Assists in the instruction of trainees;  
Supervises the work of laborers and other subordinate employees;  
Keeps a log of plant operations and related records;  
Performs custodial duties in connection with maintenance of buildings and grounds.

**REQUIRED KNOWLEDGE, SKILLS AND ABILITIES:** Good knowledge of the practices used and equipment required in the operation and maintenance of a Type B Plant with facilities for the application of chemicals to the water, such as chlorine or chlorine compounds, chlorine dioxide, chlorine ammonia, fluoride compounds, or the process of dechlorination, working knowledge of the principles and application of physics, chemistry and bacteriology as they relate to water purification; skill in the operation and repair of pumps, valves and related mechanical and electrical equipment; ability to read, understand and record data from gauges, scales and meters; ability to make routine laboratory and field tests for control of plant operation; ability to understand and carry out oral and written instructions; mechanical aptitude; alertness and dependability; good physical condition.
